

# ARE YOU PASSIONATE ABOUT AEROSPACE?

We are now looking for a fresh graduate to join our team. Become an **ASIC/FPGA Engineer!**

Join our team that designs, verifies, integrates and tests complex avionics products within Honeywell Aerospace. You will take care of coding, running simulations, synthesis, creating test benches and documentation. You will work closely and partner with world class hardware and software engineers during test and integration phases.

#### **Key Responsibilities:**

- Design and Simulation
- Conduct Code Synthesis
- Integration and Test Support
- Provide Customer Support
- Prepare Documentation
